

PROPOSITION 65 California

WARNING: CANCER & REPRODUCTIVE HARM

www.p65warnings.ca.gov

This warning is part of Sälzer Electric GmbH products effort to comply with the California Safe Drinking Water and Toxic Enforcement Act of 1986 (known as "Proposition 65"). The warning does not mean that our products will necessarily cause cancer, birth defects, or other reproductive harm. While we believe our products are not harmful when used as designed, and we rely on our suppliers to help with this effort, we also provide these warnings to comply with Proposition 65.

Proposition 65 applies to any company that operates, sells or manufactures products that may be sold in or brought into California. Proposition 65 requires warnings to accompany any product that contains or may contain any of 800-plus chemicals appearing on the list administered by California's Office of Environmental Health Hazard Assessment (OEHHA), a part of the California Environmental Protection Agency.

Proposition 65 imposes strict penalties for noncompliance. While California establishes "safe harbor numbers" for listed chemicals, the costs of individually testing for the possible inclusion of more than 800 chemicals in the products we manufacture is only partly possible (while the list of chemicals is expansive, it is also subject to change annually).

Our products, depending on the design, could contain the following materials according to our current knowledge: Cadmium (metallic, compounds), Carbon black, Glass wool fibers, Lead and Nickel (metallic, compounds, oxide)
